

ENGINEERED COATED PRODUCTS

All weather protection

AT THE PORT - ON THE ROAD - IN THE YARD

KingStone_ Wrap is a Engineered Woven Coated product made with iLOCK and Indo Swiss Technology.

KingStone_Engineered Woven Coated Product is ideal for use in Protection of all weather, Wrapping and Covering applications. The durable, stress crack resistant, lightweight construction of KingStone provides outstanding performance in many different climates and environmental conditions.

KingStone_Engineered Woven Coated Product ideal for applications such as Tarpaulin, Truck Covers, Temporary Shade, Fumigation Covers, potable water reservoirs etc.

Property	Test Method	Copolymer _ 75	Polyethylene _ 75
Product weight	ASTM D 751	68	68
Product Width (Inch)	ASTM D 751	108, 144	108, 144
Breaking Strength (Kgf/2")			
Machine Direction	ASTM D 751	36	40
Cross Direction	ASTM D 751	36	40
Elongation at Break (%)			
Machine Direction	ASTM D 751	20%	20%
Cross Direction	ASTM D 751	20%	20%
Tear Strength (Kgf)			
Machine Direction	ASTM D 4533	08	10
Cross Direction	ASTM D 4533	08	10
Low Temp flexibility	ASTM D 2136	-50 Deg C	-50 Deg C

- 1) Values are typical and not limiting specifications
- 2) MD & CD refers to machine and cross direction.
- 3) Warranty buried and exposed data is general recommendation
